When used on large, flat sewn seats such as the Munich and Singapore accent chairs, the polyurethane and P.V.C. may stretch and crease over time. This phenomenon should not be considered as a manufacturing nor design defect.

Lorsqu'utilisés sur de grands sièges cousus comme sur les fauteuils d'accent Munich et Singapore, le polyuréthane et le vinyon peuvent s'étirer et plisser avec le temps. Ce phénomène ne doit pas être considéré comme un défaut de fabrication ou de conception.

Cleaning Instructions *Instructions de nettoyage*

The A1 Barley finish let the natural color variations of the wood show through the stain. The finish can range from a natural wood color to gray, pink or yellow hues, making each piece truly unique.

Le fini A1 Barley laisse entrevoir les variations naturelles de couleur du bois sous la teinture. Le fini peut donc passer d'une teinte de bois naturel à des tons plus gris, plus rosés ou plus jaunes, ce qui rend chaque pièce vraiment unique.

Solid Wood (ash)/ *Bois massif (frêne)*

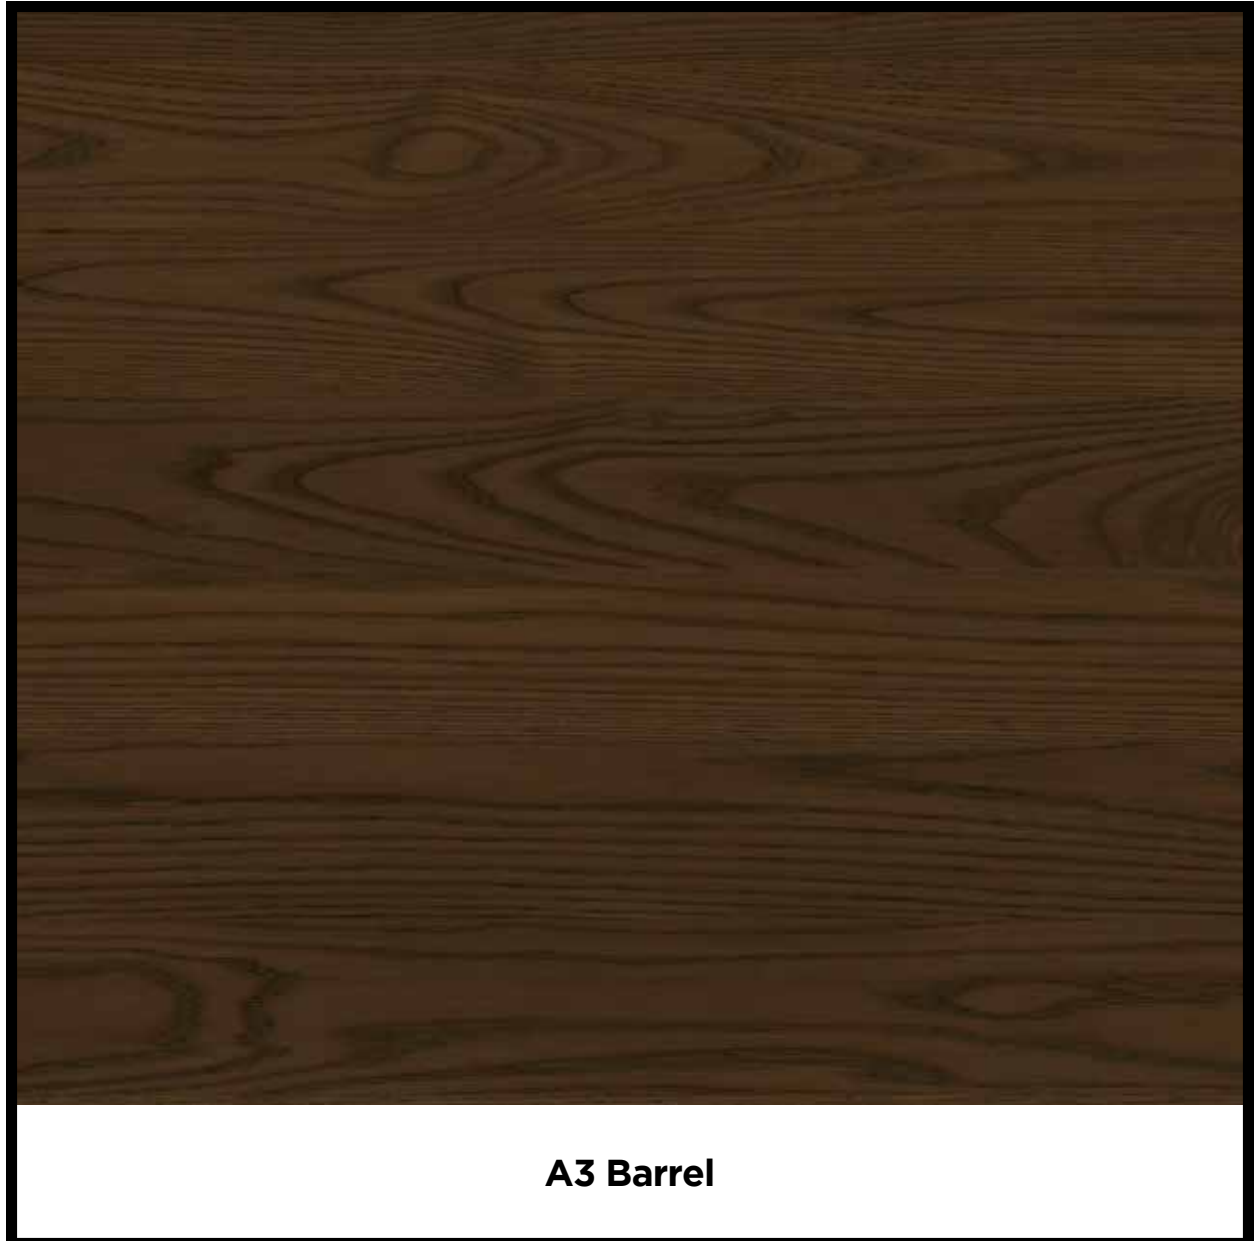

The A2 Raccoon finish let the natural color variations of the wood show through the stain. The finish can range from a dark, medium or light gray tint to brown hues, making each piece truly unique.
